

## MARKETS ON THURSDAY.

## INDIANAPOLIS AND CHICAGO LIVE STOCK QUOTATIONS.

## The Financial Situation—Speculative Notes and Brokers' Local Jobbing Quotations.

## The Situation.

The speech of Hon. Thomas B. Reed in accepting the office of Speaker of the House is taken to mean that the Republican majority in the Fifty-fourth Congress will not enact any measures inimical to business interests or invested capital. Legislators, perhaps, will learn finally that it is the business interests of this country that in the long run dictate our legislative policy.

It is the action of business men that influences the sentiment, and it is business men's votes that ultimately determine the course of the country. The voice of the industrialists is, of course, principally cast by the covering of shorts, but this covering is done by the industrialists themselves in the market, and the industrialists are found beyond the walls of the stock exchanges.

If there is to be a cessation of legislation adverse to combined capital, then the field for profit through co-operation is enlarged materially. It is becoming recognized that the industrial companies are in a position on the part of those operators to make a profit. This is unusual, as the industrial companies are not usually in a position to make a profit.

An expansion of industry, such as can be experienced in the future, would make itself felt in every direction. It would mean increased employment for labor, larger business for the nation companies and a distinctly better tone in all investment and speculative circles.

It is evident to all observers of the times that the tendency toward speculation is slowly but surely growing all over the country. Already several prominent New York bankers are setting themselves in the line of speculation in Colorado Springs, which is the nearest financial center to the Cripple Creek country.

Cold mining speculation naturally leads to illegitimate schemes, and as the New York, Boston and Philadelphia can best protect the investing and speculative public.

## The Growing Wheat.

The late rains in the winter wheat districts, according to reports from all portions of the great wheat belt, have benefited the growing crop very favorably. The start was late, as the drought continued during the seeding, and the winter approach was so nearly that the new grain has not a heavy growth, and in some portions it is said to be thin on the ground, as the growth has been so recently that it is not nearly so dense.

There are in some parts of Kansas, particularly in the eastern portion of the State, complaints of the wheat being thin, yet, but generally throughout Ohio, Illinois, Indiana and Missouri the reports are rather favorable, and the prospect appears to have been made than was made at this time last year.

Perhaps the crop is no more forward than last year, but the ground is blessed with more moisture, and it will be a better start in the spring.

While a larger growth at this season of the year would be a good thing to stand the freezing and thawing during the winter, it is not improbable that the next year in these States, of course, little will be known of the situation or growing prospects until after April. If the weather should be unfavorable during the latter part of the winter, when the wheat is in the seedling stage, the reports would be favorable. February and March of a poor crop would likely result in an advance before May, but without substantial reason.

## Country Hides.

## Shoe and Leather Review.

The country hide market is still soft and unimpressive. The dealers more cautiously view the future of the market, and the price of hides is not likely to advance. The situation is not likely to change, and the price of hides is not likely to advance. The situation is not likely to change, and the price of hides is not likely to advance.

## Brokers' Gossip.

By S. C. Lee & Co. & Co. Wire.

New York, December 5.—Sugar yesterday almost monopolized speculative attention. This, however, was more the result of Indianapolis and Chicago traders and public to take no action than the legislative action of the market.

The undertone indeed, seems to be bullish and the disposition was apparently to respond quickly to any favorable developments. The news of the day was not important in the least.

The St. Paul earnings for the last week of November and the month show that the road had been doing well, and the movement of corn. The foreign exchange market remains dull, though firm at 100 for demand.

Sugar stock as already noted was the feature, and the market was bullish. The tendency of the stock would seem to be toward a higher quotation.

Generally believed that nothing will be done at Washington to harm the refinery interests, and that the company, and the report of an increase in the German export countries on the refined sugar is being sold and prices showed increased readiness to sag lower.

London evinced an inclination to sell and personal interest as indicated by the complete inactivity of the market.

The low bid. This fact alone makes the market a most unsatisfactory one. We are very bullish in the Western States, and the market will sell much lower.

Quiet liquidation in progress, represented by the commission men, in the railroad stocks because of disappointing earnings, and the general feeling of the market is not to be adjusted, and consequently there is a disposition to sell.

Commenting on the day in the railroad stocks, traders, and the fact that the market is not to be adjusted, and consequently there is a disposition to sell.

St. Paul's weakness, despite an increase, was not enough to attract attention. The market is not to be adjusted, and consequently there is a disposition to sell.

Rock Island went off on its bad earnings, but Northwest was relatively steady, and the market is not to be adjusted, and consequently there is a disposition to sell.

Western Union was loaned at a premium, but the best hopes declare that the borrowing demand for the stock is largely fictitious, and that round lots of investment stock have been sold, pending the delivery of which the sellers are borrowing the stock.

Traders who are active in the industrial market are inclined to the opinion that these stocks are a sale on all the rallies, and this notwithstanding the fact that the market is not to be adjusted, and consequently there is a disposition to sell.

London markets to-day show considerable weakness, prices being from 1/4 to 1/2 below our close. Under these circumstances our market here is dull and unimpressive.

able weakness, prices being from 1/4 to 1/2 below our close. Under these circumstances our market here is dull and unimpressive. The market is not to be adjusted, and consequently there is a disposition to sell.

## CRIMINAL COURT AND POLICE.

## DIFFERENCE OF OPINION CONCERNING JUDGE MCCRAY'S SENTENCES.

## The Sentence of Charles Jones and What the Court Says About It—Changes of Venue—The Value of a Pauper Attorney.

An antagonistic feeling between the Criminal Court and the police department has developed over the sentence of Charles Jones, alias Chas. Diamond. The officers say that Jones is a bad character, and that his sentence of six months in the work-house for an assault on George Carto, is so light as to put a premium on crime.

Jones was indicted on two counts, one plain assault and battery, and the other assault and battery with intent to kill. Before the trial the prosecuting attorney demanded the second indictment, and left nothing but the indictment for assault and battery, to which charge Jones pleaded guilty.

The trial was held on Monday, and the jury found Jones guilty of assault and battery. The judge sentenced him to six months in the work-house.

## A NEW TRUST COMPANY.

## To Be Organized by Prominent Business Men—The Stock Holdings.

A new trust company is organizing. It will be the third in this city under the law by which the Indiana and the Union Trust Companies are operating. The new company will have a capital stock of \$200,000. The directors are to be chosen in a few days. Some of them already talked of are well-known business men. Frank A. Maus is to be president. The name of the company has not yet been officially chosen. One of the purposes of the organization is to handle the business of the city, and while there will be large stockholders among influential business men, attorneys and merchants, no one, it is given out, will be encouraged to take a controlling interest.

The Board of Public Works called upon the board of trustees of the Deaf and Dumb Institute this morning to see if that board would consent to give a fifty-foot strip of ground at the east end of its property for street purposes. Mr. Austin, of the Board of Public Works, is advocating a plan
